YOUR MISSION
IS OUR MISSION
YOUR MISSION IS OUR MISSION

With decades of expertise, vast technical abilities and in-house capabilities that range from aircraft maintenance and modifications to repair and overhaul services as well as manufacturing and assembly and aircraft sales and leasing, Summit Aviation is your source for uniquely tailored programs that will meet your needs and will exceed your expectations.

Summit Aviation has been a full-service aviation center since 1960, providing domestic and international services to our customers. Our staff has earned a reputation for versatility, forward thinking, detailed planning and excellent customer service. We specialize in solving complex issues for customers with demanding schedules and quick turnaround requirements.

Our broad base of customers includes United States Government agencies, international militaries, state and local law enforcement agencies, and general and corporate aviation clients. Providing exceptional service, done right and on time is a priority for us.

Due to our highly trained and technical workforce, our services are more extensive than those provided by other Fixed Base Operators (FBO), such as airframe modifications for larger turboprop and jet aircraft and other heavy repair and maintenance services.
OUR FACILITY

Summit Aviation’s 550-acre site is conveniently located in Middletown, Delaware with New York and Washington being only a two-hour drive or 30 minute flight away. Our facilities are comprised of 78,000 square feet of hangar space, a 9,000 square foot paint facility, and 114,000 square feet of office, storage, and training facilities.

Summit Aviation was acquired by Greenwich AeroGroup Inc., in 2008. With its headquarters in Wichita, KS., the Parent company owns and operates providers of general, commercial, government and military aviation services including: aircraft sales, charter and management, avionics solutions, component repair and overhaul, engineering, financial services, government and military, manufacturing, MRO and FBO and parts distribution. Other locations owned by Greenwich AeroGroup include: Aero Precision, located in Livermore, CA.; DAC International, Inc., located in Austin, Texas; Helivia AeroTaxi, located in Rio de Janeiro, Brazil; NASAM, Inc., located in South San Francisco, CA.; Professional Aircraft Accessories, Inc., located in Titusville, FL.; Professional Aviation Associates, Inc., located in Atlanta, GA.; TruAtlantic Mfg., located in Kernersville, NC.; and Western Aircraft, Inc., located at Gowen Field in Boise, ID.
OUR CORE CAPABILITIES

- FAA Part 145 certificated repair station
- AS9100C certified
- FAA radio class 1, 2 & 3 ratings
- Airframe class 3 rating
- Unique mission equipment package development
- Approved service center for Airbus, Bell, Cessna, Euravia, Mahindra Aerospace GippsAero, Quest and Sikorsky

INTERNATIONAL REACH

We not only serve the United States but also provide worldwide customer support. Since 1980, Summit has prepared more than 100 aircraft for delivery to foreign customers. Whether its aircraft maintenance, modifications, aircrew training and support or logistics training and support, we have the resources to support your mission.

The countries where we have provided aircraft deployment, training and operations include:

- Egypt
- Haiti
- Honduras
- India
- Nicaragua
- Peru
- Saudi Arabia
- Singapore
- Taiwan
- The Netherlands
- United Arab Emirates
- United Kingdom
### WHO WE SERVE

Summit has an extensive U.S. and International customer base supported out of its facilities in Delaware and Kentucky.

OUR PEOPLE

Our employees are Summit’s most valuable asset. The highly trained and experienced technicians perform airframe, powerplant, propeller, hydraulic, rotor system, drive train, flight control, electrical, avionic and mission systems inspections repairs and modifications. We have access to structural, system design and engineering services to approve structural modification/repairs and avionics installations.

Summit is a cleared, DOD approved contractor facility.

MANUFACTURING

Summit Aviation’s Manufacturing facility in Somerset, Ky. is growing by leaps and bounds. Today, it provides aero structure product assembly for a variety of military and commercial helicopters and fixed wing aircraft. Additionally, it has paint capabilities that support prime and finish components.

Core competencies include:

- Manage supply chain for complex assemblies
- Manufacturing and assembly of airframe components
- Manufacturing and assembly of dynamic components (transmissions, engine assembly)
- Low and high volume manufacturing
- Spares support – for items such as control rods, gaskets, seals, struts, skid assemblies
- Full paint capabilities
- Build-to-print
FIXED BASE OPERATOR SUPPORT

In addition to our maintenance and support services, we also offer full FBO support. With flexible hours and personalized service, the flight operations team strives to exceed all customer expectations. We provide:

- Courtesy cars and shuttle service
- Pilots lounge for flight planning
- Wi-Fi internet access
- Local hotel and restaurant information
- 24-hour service available with reservation

KEVY airport (EVY) is owned and operated by Summit Aviation. North/South runway 17/35 is 4,500 feet by 66 feet and can accommodate medium size jets and turboprop aircraft.

Summit Aviation is a Shell branded FBO, honoring the Shell Aero Class incentive program. KEVY airport (EVY) is owned and operated by Summit Aviation.

WHY YOU SHOULD WORK WITH US

Summit Aviation has extensive experience managing complex aviation modification and certification programs, maintenance and aircraft refurbishment programs, experimental flight testing, training support and worldwide logistics support.

Our success is a culmination of a team-oriented approach, comprehensive planning, and resource utilization. We have the capability to manage large projects while providing the controls necessary to consistently meet quality and performance goals.

Our goal is to provide cost effective solution to meet our customers needs, expectations and requirements.
