

# INTERIORS – **YOUR WAY**

Making over your aircraft's interior, whether refreshing the seats and fixtures, upgrading the technology or reconfiguring the entire cabin to accommodate your needs is an exciting event.

It provides the opportunity to tailor your travel environment to your needs while reflecting your distinctive image and safeguarding your investment in the aircraft. Whether creating an office in the sky, a living room environment, or a blend of both, our designers and craftsmen take great pride in bringing your vision to life.

### **We're Dedicated to Your Experience and the Process**

In order to obtain consistently beautiful and long-lasting results, we must vigorously manage and pay extraordinary attention to every detail of the work.

### **Interior Capabilities Include:**

- Partial or complete cabin refurbishment
- Complete cabin reconfiguration
- Expert carpentry and wood finishing services
- State of the art painting capabilities
- Electronics, wiring and interior lighting
- Countertops and cabinetry
- Galley/cabin amenity services
- Surface plating
- Carpeting and flooring

### **We Are Focused On You**

Our interior planning and execution structure encompasses these key steps:

- Understanding your vision and budget
- Designing the interior scheme
- Identifying and integrating the most advanced technology solutions when applicable
- Engineering and certifying the options incorporated
- Establishing a detailed task list and schedule and adhering to them
- Securing your input and acceptance of the work throughout the process
- Returning the aircraft to service
- Supporting you and your aircraft after its return

These steps enable us to fulfill your requirements on time and on budget with high-quality results.

Summit Aviation looks forward to serving your interior, maintenance or paint needs. Reach out to Ken or Denny for more information on any of Summit's services.
