

Over-The-Counter Parts

Summit offers more than 50 years of experience in airframe, maintenance, modifications, avionics and paint to support our broad base of customers including United States government agencies, international militaries, state and local law enforcement agencies and general and corporate aviation clients.

Our core values are to provide the industry with superior service, reasonable prices, quick turnaround and quality workmanship through our AS9110 and AS9100 certification. Understanding the needs of our customers is key in providing excellent service, and that's why we offer Over-The-Counter parts sales.

Summit's OTC part sales allow us to provide factory new and rotatable parts to support our customers worldwide.
